Subject: Vendor Performance

I would like to take this opportunity to express my thanks for the terrific job your company has done over the past two years in support of the Printed Wiring Board Commodity for the Denver location.

In all categories of our rating program, (Quality, Cost and Delivery), Far East has met every challenge we have presented and your level of support in our Consignment inventory has allowed us to support the customer delivery performance we required. A rating of "preferred" is requested from each supplier we have in this commodity and you are one of only two that have sustained this level of performance over the long haul.

The commodity team supports the belief that the success we have enjoyed during our brief relationship has made our product more cost effective and your delivery and quality performance has allowed us to support our customer base so they get delivery when they request of a high quality product.

Again thanks to you and all members of your team for the support they have given to the Denver Works.

Sincerely;

A handwritten signature in cursive script that reads "Brad".
